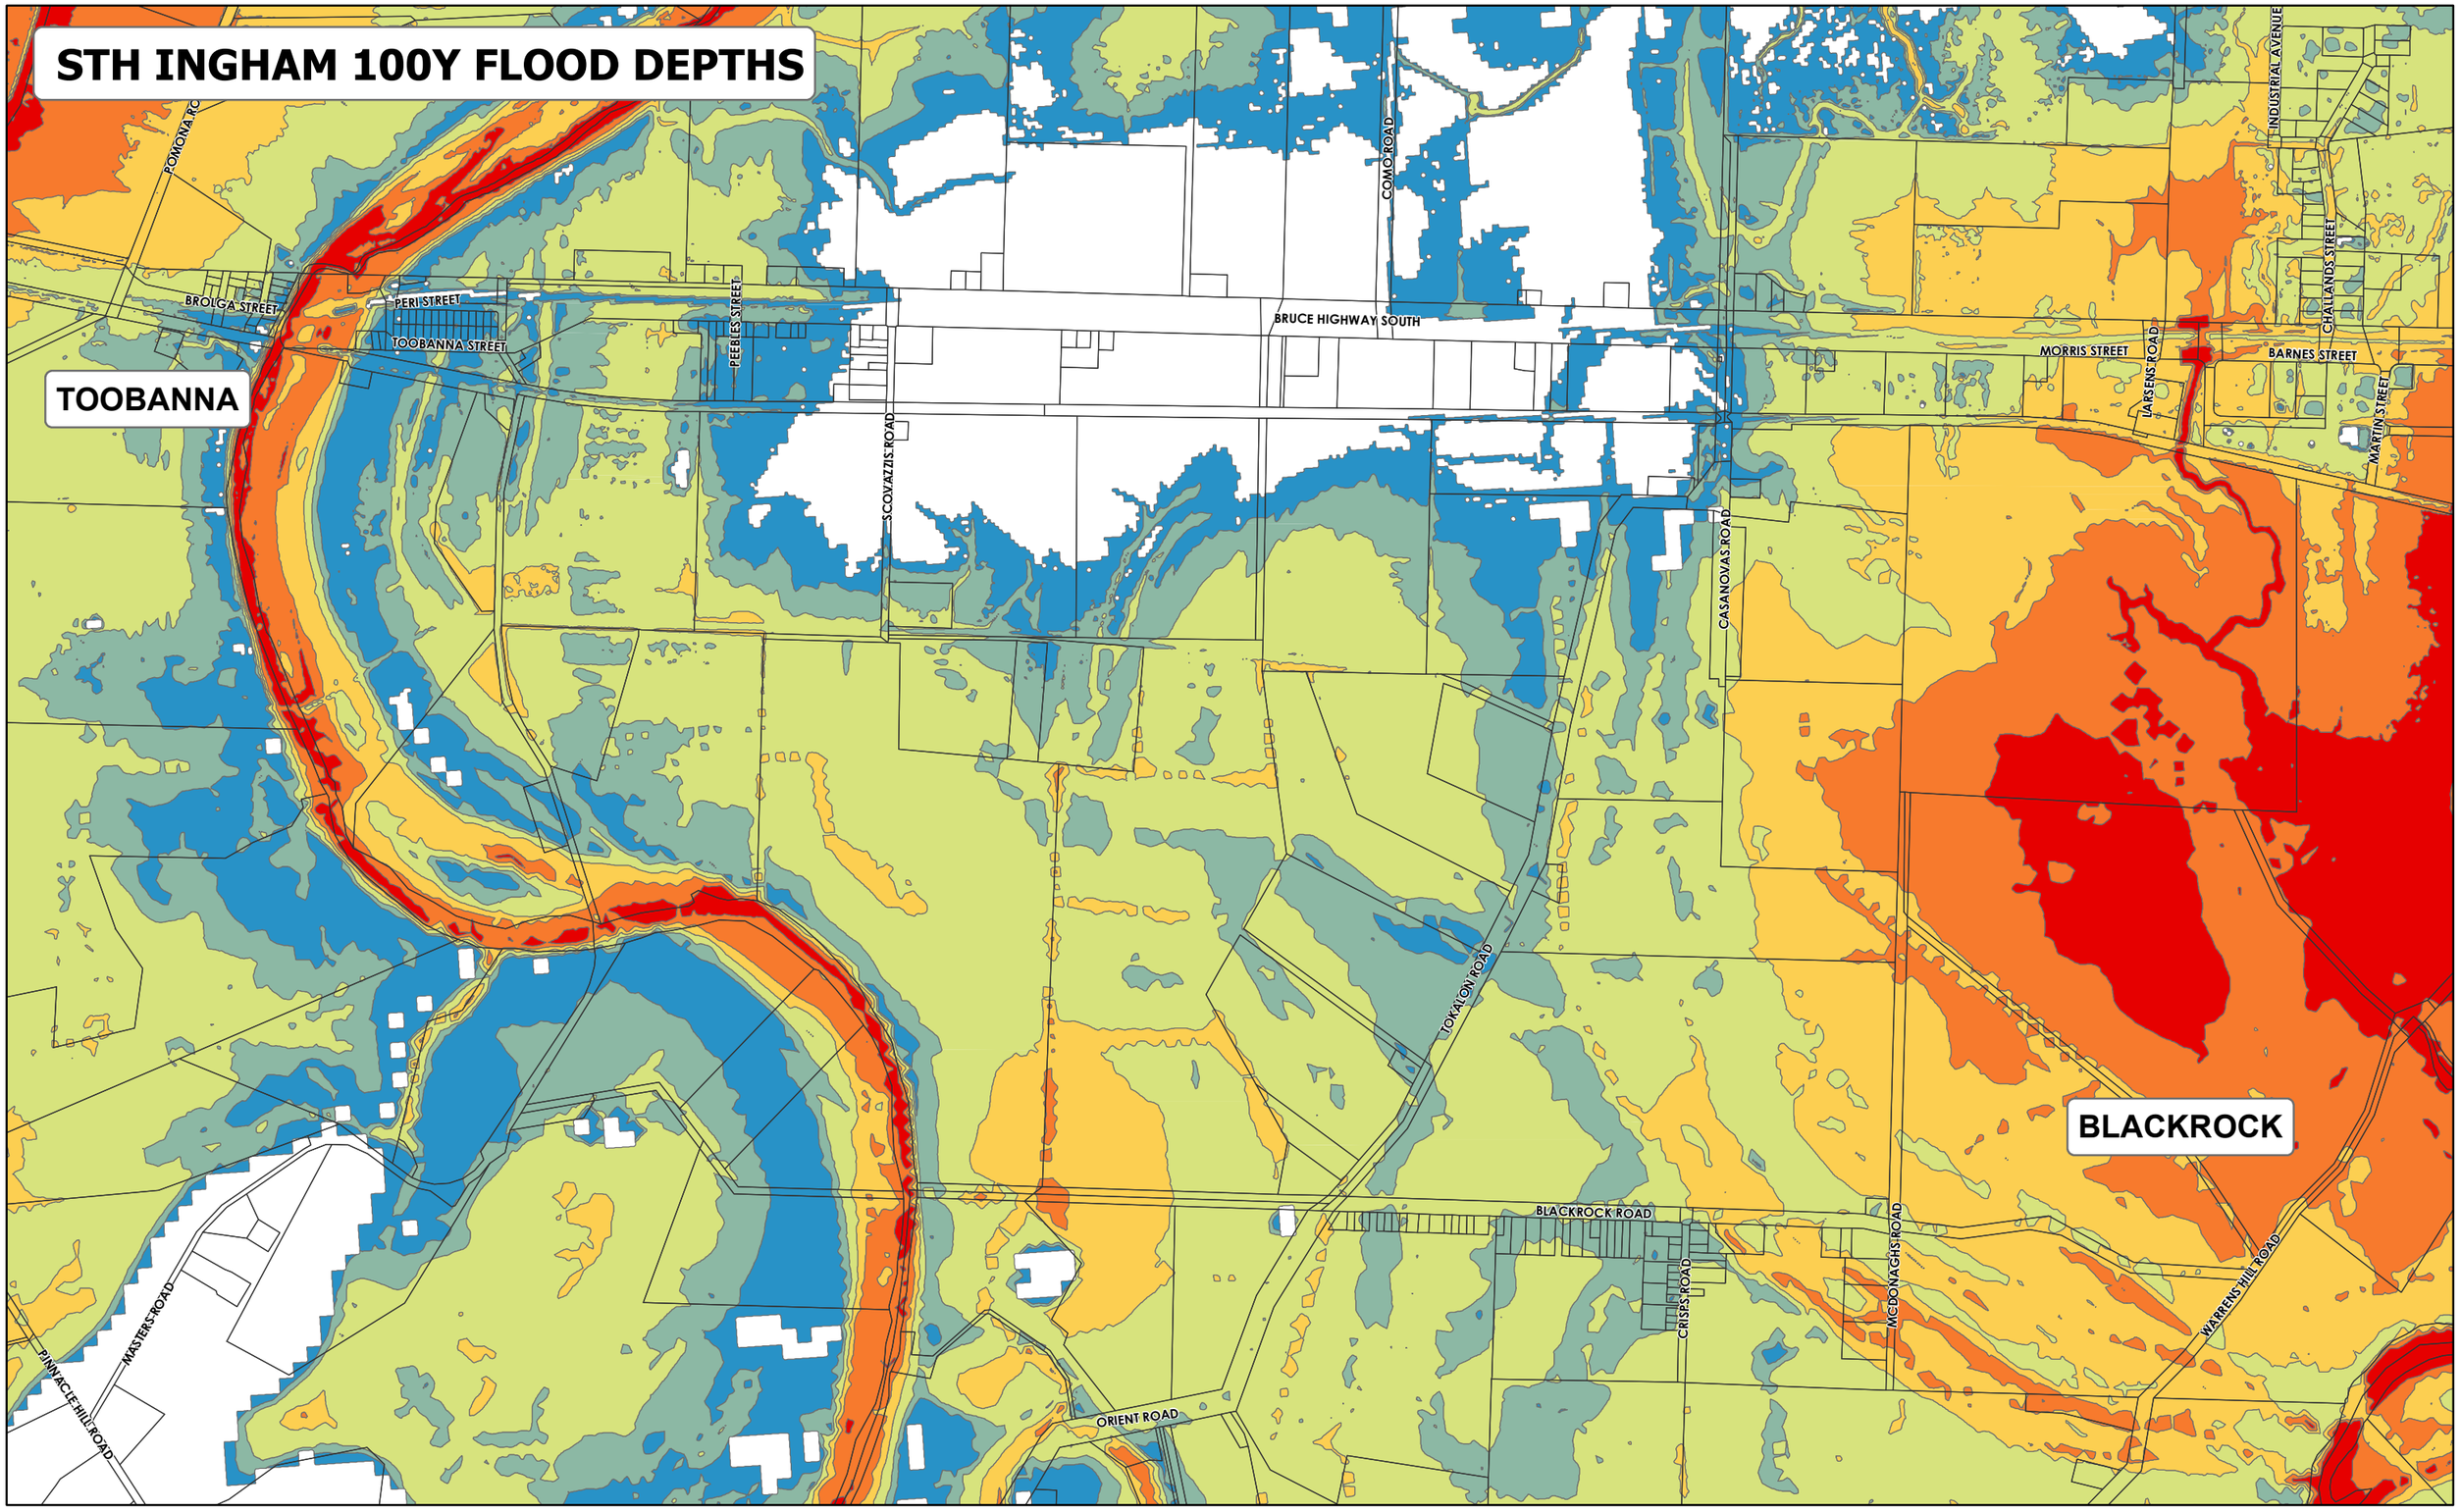
STH INGHAM 100Y FLOOD DEPTHS



Hinchinbrook Shire Council

HINCHINBROOK SHIRE COUNCIL

Hinchinbrook Shire Council provides this information using mapping data supplied by consultants BMT WBM for the Herbert River Flood Study (2015). Council does not under any circumstances accept or admit liability in any way for an incorrect interpretation of the information derived from the mapping. Please note there can be anomalies in flow depth across the flooded area, due to variations in flow restrictions, flow velocity, direction and changes to the landscape. The information is provided as a guide only, and recipients are advised to seek professional assistance to interpret the data for their requirements.
