

Digital Outreach for Schools

Australian Festival of Chamber Music

Through the Pathways Digital Platform, AFCM is partnering with schools across northern Queensland to provide high quality online instrumental lessons from professional musicians for students with high potential.

Lessons are scheduled during school hours with staff supervision on the school network. Lessons run for one hour each, with five lessons delivered per term. Participation is \$570 per term for one student, which covers teacher fees and Digital Platform access. The other costs of the platform are covered through support from the Ian Potter Foundation.

- Five fortnightly 1-hour lessons per school term with AFCM-endorsed artists
- Lessons hosted online on the Pathways Digital Platform
- Ideal for high-performing high school instrumental students
