|------------------|------------------------------|--------------------|---|
| <b>Subject:</b>  | HASS (Geography)             | <b>Year Level:</b> | 9 |
| <b>Week:</b>     | 2                            | <b>Term:</b>       | 2 |
| <b>Teachers:</b> | T. Lindeberg, A. Kirkpatrick |                    |   |

### Learning to be undertaken this week:

**What:** This week, students will be introduced to the topic of Human Impacts on the environment as well as Agriculture and its links to sustainability and impacts on biomes.

**Why:** Human impacts on the environment are an inevitable part of life and the cycle of the Earth and how it operates. Therefore, it is important to understand how humans alter the process of life and what can be done to minimise the impacts.

**How:** Students will have full access to notes in the form of powerpoints. Students will be required to read and at times summarise these notes before using the content to assist with relevant tasks that demonstrate understanding. There are a couple of short videos to view as well.

| Session                          | Learning Experiences   | Completed                |
|----------------------------------|--|--------------------------|
| 1                                | <ul style="list-style-type: none"> <li>Human Impacts on Biomes</li> </ul>                        | <input type="checkbox"/> |
| 2                                | <ul style="list-style-type: none"> <li>Trends in Global Agriculture (Assessable task)</li> </ul> | <input type="checkbox"/> |
| Independent Learning Suggestions | <ul style="list-style-type: none"> <li>Traditional Land Management Practices</li> </ul>          | <input type="checkbox"/> |

*Independent learning suggestions are made for students wanting to extend or learn more about a particular topic. They are not mandatory.*
