

2025/2026 INFORMATION PROVISION FOR PORTS NORTH

MARINA CUSTOMERS THAT ARE SUPPLIED WITH ELECTRICITY FROM OUR EMBEDDED NETWORK

Background

Commencing from 1 July 2015 the National Energy Customer Framework (NECF) was introduced in Queensland. This framework encompasses a set of national laws, rules and regulations governing the sale and supply of energy to retail customers.

The information provision statement is made in accordance with the *National Energy Retail Law Act 2014 (Qld) and Regulation 2014, current as at 01 July 2025*, National Energy Retail Law, National Energy Retail Rules and National Energy Retail Regulations, under a regulatory framework set out by the Australian Energy Regulator (AER) which operates under Part IIIAA of the Competition and Consumer Act 2010.

Far North Queensland Ports Corporation Limited trading as Ports North holds an embedded network registrable exemption - pursuant to network registrable exemption classification NR1 and NR5, under the AER's Network Exemptions Guideline (previously referred to as Electricity Network Service Provider – Registration Exemption Guideline).

Far North Queensland Ports Corporation Limited trading as Ports North also holds a registrable retail exemption - pursuant to retail registrable exemption classification R1 and R5, under the AER's Retail Exempt Selling Guideline.

In accordance with the Network Exemptions Guideline and Retail Exempt Selling Guideline the following information is provided.

Definitions

Embedded network – a privately owned energy network, connected to the distribution network by one or more meters. Energy is delivered to customers via the private network. For the purposes of the retail exemption guideline, a private network connected to another private network is also considered an embedded network

Exempt seller a person who is exempted by the AER under a deemed registered or individual exemption from the requirement to hold a retailer authorisation.

Exempt customer – person to whom an exempt seller sells energy and who would be a retail customer of the seller if the seller were a retailer

Onselling – An arrangement where a person acquires energy from another person, and they, or a person acting on their behalf, sells energy for use within the limits of a site.

1. Obligation to supply electricity

Ports North as an exempt seller, will sell energy to you, with the exception being in accordance with the relevant disconnection provisions.

Ports North as an exempt seller is not subject to all the obligations of an authorised retailer and you, as the exempt customer, will not receive the same protections as you would if you had your own direct point of supply and were a customer of an electricity retailer.

2. **Dispute Resolution**

Customer complaints should be submitted in writing addressed to:

Electricity Account Enquiries - Ports North
PO Box 594
CAIRNS QLD 4870

OR

Email to: accounts.receivable@portsnorth.com.au

The following information must be provided:

- a copy of the electricity invoice; and
- a clear explanation of the complaint.

For further information on our complaints handling policy and procedures, please refer to our website at <https://www.portsnorth.com.au/cp/cairns-port-services-facilities/cairns-port-electricity/>

Should you be dissatisfied with our response, you have the right to contact the Energy and Water Ombudsman Queensland:

<u>Post</u>	Energy and Water Ombudsman Queensland PO Box 3640, South Brisbane BC QLD 4101
<u>Telephone</u>	1800 662 837
<u>In Person</u>	Level 1, 15 Lake Street, Cairns City, Qld
<u>Email</u>	complaints@ewoq.com.au
<u>Online</u>	www.ewoq.com.au

From: www.business.qld.gov.au/running-business/energy-business/energy-pricing/dispute-resolution:

Embedded network customers

If you are unable to resolve your billing dispute with your embedded network owner, there are a range of dispute resolution services available, depending on your situation.

- Contact the [Office of Fair Trading](#) for further information and advice about your consumer rights.
- Contact the [Queensland Civil and Administrative Tribunal](#) for mediation services for debt disputes.

3. **Conditions applicable to the exemptions**

Short-term provision of electricity is covered by Retail Exemption Class D3. The Exempt Selling Exemption Conditions are a subset of those applying to permanent customers (R1 and R5) and include:

Condition 1 – Obligation to Supply: Clause (a) and (b)

Condition 2 – Information Provision: Clause 2.1 (a), (h) (j) and (k), 2.2 and 2.3 only

Condition 3 – Billing and Payments arrangements: Clause 3.1, 3.2 (a-d), 3.3 (a, f, h, k, l, m, o, p) only

Condition 4 – Estimate as a basis for bills: Clause 4.1, 4.2, 4.3, 4.4(a-b), 4.5

Condition 6 – Receipts: Clause 6.1, 6.2

Condition 7 – Pricing: Clause 7.1, 7.2 and 7.3

PLEASE NOTE: The Energy Regulatory Framework provides additional protections for residential customers. Supply to the Marina areas is for business customers only and the protections available to residential customers **DO NOT APPLY**

4. **Energy tariffs, fees and charges**

Payment options include electronic bank transfer, in person or by cheque.

The due date for payment of charges is 30 days from the date of invoice. Should you experience financial difficulty in attending to payment of an electricity invoice, you are required to submit, in writing, a request for a payment extension. This request is to be emailed as per the contact details in Item 5 (page 4).

The payment extension options are to be reviewed on a case by case basis and terms agreed upon review of each request.

Ports North may recover an administration fee based on actual administration costs or legal costs (including any external legal costs based on invoiced amounts) incurred by Ports North, as part of the debt recovery process, in addition to the invoiced charges.

As an exempt seller, Ports North is not permitted to charge you more than the local area retailer's standing offer. The current tariff applicable to all vessels drawing 3 phase electricity within the Cairns Marlin Marina is Tariff 20:

TARIFF DESCRIPTION – Tariff 20, Small Business flat-rate primary tariff

From 1 July 2025	Ex GST	Inc GST
All usage per kWh	\$0.32364	\$0.35600
Daily Supply Charge	\$1.82791	\$2.0107

The Ports North energy tariffs and associated charges document detailing all tariff fees are available at: Electricity | Ports North. More detailed information on electricity on tariffs is available at www.ergon.com.au/retail/business
