The tariffs applied to the on-supply arrangement are in-line with the local area retailer's standing offer (Ergon Energy). **The following tables are an excerpt from the Gazette dated 9 June 2023.**

Small business tariffs

Small businesses tariffs are designed to meet the unique energy needs of our small business customers. Customers have the option to switch between large business tariffs once in a 12 month period.

General supply tariffs

On a general supply tariff, you pay for the electricity you use at a flat rate throughout the day and night, plus a daily supply/service charge.

Tariff 20 Small Business flat-rate primary tariff

This tariff is the most common tariff for small businesses, providing a continuous supply of electricity day and night at a flat rate, plus a daily supply charge. It's suitable for small businesses that use most of their electricity during the daytime.

Exclusive of GST

From 1 July 2023	Cost
All usage per kWh	\$0.34319
Daily Supply Charge	\$1.42180

Demand tariffs

On a demand tariff, you're charged for the total amount of electricity you use plus a demand charge and a daily supply charge.

The demand charge is based on measuring the maximum amount of electricity you use at any point during your billing period.

When you choose a demand tariff, your whole business must be connected to that tariff.

Large business tariffs

Large businesses tariffs are designed to meet the unique energy needs of our large business customers, using more than 100MWh per year. Customers have the option to switch between large business tariffs once in a 12 month period.

Demand tariffs

Most large business tariffs are demand-based. On a demand tariff, you're charged for the total amount of electricity you use plus a demand charge and a daily supply charge.

The demand charge is based on measuring the maximum amount of electricity you use at any point during your billing period.

When you choose a demand tariff, your whole business must be connected to that tariff.
