

Teaching and Learning Framework

Assisting our learners to...

- ▶ understand that they are loved by God;
- ▶ know that they belong to a hope-filled community of faith;
- ▶ actively seek life-giving relationships.

Challenging our learners to...

- ▶ strive for high standards;
- ▶ engage with the deep questions of life;
- ▶ make a positive difference in the world.

"An education in the fullness of humanity should be the defining feature of a Catholic school."

Pope Francis

Catholic Education Diocese of Rockhampton

Inspired by the person and teaching of Jesus Christ, we serve the communities of the Catholic Diocese of Rockhampton.

Providing life-long faith education; Religious Education; relevant, holist, quality education; assisting all in their search for the meaning of life.

*Catholic Education | Diocese of Rockhampton
Vision and Mission Statement*

Catholic schools and colleges have developed their Teaching and Learn Framework by responding to the Diocesan Vision and Mission for Catholic Education and holding each school community, and their learners, at the centre.

A Teaching and Learning Framework highlights three key components based on **belonging**, **connecting** and **learning**.

❶ Vision and Mission

Provides a common understanding of the school's purpose and future hopes.

All members of the school community work in partnership, creating a desired future and a deep sense of belonging.

❷ School Curriculum Guide

Outlines a shared understanding of knowledge and skills to be taught, as well as relevant achievement standards and assessment processes.

School and college leaders and teachers will use this guide to connect their planning with the implementation of the Australian Curriculum, QCAA Senior Syllabuses and Vocational Education Certificate courses.

❸ Schoolwide Pedagogical Model

Adopts a mutual understanding of how teachers will teach so that learners achieve optimal growth and learning success.

Consistent, evidenced based approaches within and across schools and colleges supports the Diocesan Mission to provide a relevant, holistic and quality education. Each school and college will establish a pedagogical approach to incorporate Virtues in the Catholic Tradition, Mindset Priorities, Learner Dispositions and Principles of Practice.
