

DEALING WITH ILLICIT AND UNSANCTIONED SUBSTANCES IN CATHOLIC SCHOOLS

Scope: This policy applies to all Catholic schools and colleges, conducted by Catholic Education - Diocese of Rockhampton (referred to as CDER in the document).

1. POLICY STATEMENT

Catholic schools and colleges (hereafter referred to as Catholic schools) in the Diocese of Rockhampton will implement appropriate drug education programs. They will also implement prevention and intervention strategies with regard to the use and possession of illicit and unsanctioned substances by staff and students of their school communities. Catholic schools will adopt the Catholic Education management procedures.

2. DESCRIPTION

Catholic schools in the Diocese are guided by gospel values in addition to operating within legislative requirements. All in our Catholic school communities have the right to have their safety and welfare protected.

Catholic schools play significant roles in preparing students for living in society. Catholic schools can contribute to reducing problems relating to the use and possession of illicit and unsanctioned substances by educating staff, by making information available to parents and students, by providing positive role models, by promoting health and by responding to the students' welfare needs.
