

## Coronavirus Update – 29 May 2020

Dear Parents, Carers and Staff,

Everything has gone well this week with the return of all our students. This email just contains a few reminders for everyone.

### Devices

There are still a number of borrowed devices and chargers outstanding. It's imperative that both of these are returned to the Library (Junior Campus) or The Hub (Senior Campus) as soon as possible, so that students can use them in classrooms.

### Drop off area - Junior Campus

Please be aware that the drop off area on the Junior Campus has been extended. This will allow more children to be dropped off at the one time to help make drop offs quicker. There'll be staff on duty to supervise children walking around the drop off area from 8:10am and indicators to outline the walking path. Please refer to the attached map.

### Road Map

The Queensland [Road Map to Easing Restrictions](#) is a useful document to provide 'at a glance' general community expectations. The FAQs link is very useful too.

### Health and Hygiene

If students or staff are unwell they must stay home. Please remind your child/ren of the importance of good hand washing (20 second rule) and coughing/sneezing hygiene.

### Cleaning

School cleaning continues to be a priority with extra attention being given to high frequency touch point surfaces, such as door handles, light switches, desks, toilets, taps and sinks. A big shout out to our cleaning staff for the amazing work they're doing to keep our students and staff safe.

That's all for this week. Have a great weekend.

Regards

Paula Duffy  
Acting Principal
