

High Potential Learners Program

ST MARY'S Catholic College

12.10.2020

Dear Parents and Guardians,

I would like to take this opportunity to extend a warm St Mary's welcome to your family and congratulate your child on joining our student cohort of 2021. I look forward to seeing your child flourish in our vibrant community.

St Mary's Catholic College is committed to ensuring all students are supported to achieve success as learners and we boast a proud history of this academic success. As we begin preparations for your child's learning journey through our College, I am delighted to provide an opportunity for children seeking extension and enrichment via our High Potential Learners Program commencing 2021.

St Mary's High Potential Learners Program provides tailored learning that is delivered by curriculum experts who are trained in gifted education. Our program reflects our commitment to empowering our learners to achieve their personal best and transform their potential into high performance.

I welcome you to peruse the attached information on our High Potential Learners Program. Also attached is a parent nomination form which will need to be completed and **returned to the College by Wednesday, 28th October**, for your child to participate in this testing opportunity. The General Aptitude Test will occur at St Mary's on Thursday, 5th November from 2:00pm to 3:30pm. Successful entry to the program will be based on your child's aptitude test result, current academic records, and the completed parent nomination form.

For further information about the program, please visit St Mary's website or contact our **Leader of Pedagogy - Janelle Santolin (jsantolin@cns.catholic.edu.au)**. We look forward to working with you and your child in the coming years. My best wishes for the remainder of the school year.

Yours sincerely,
