

Mentoring essentials for career development

Supporting women researchers in early- to mid-career

Friday 24 June, 3pm to 4:30pm AEST online

Free registration [HERE](#)

A good mentoring relationship can lead to an individual's greater career success, including increased opportunity, and promotion. Organisations benefit through higher levels of engagement, retention, productivity and knowledge sharing between employees.

Successful mentoring requires planning, with specific skills, sensibilities and structure from mentor and mentee. Join our webinar to learn what the research shows on mentoring, and hear about the essentials to kickstart your mentoring.

Program:
