

JUNIOR SCHOOL

NORTH SHORE CAMPUS

Opening doors since 1888

A JOURNEY OF A THOUSAND MILES BEGINS WITH A SINGLE STEP

Your child will only start school once – make sure it is the best possible start for your child.

To assure access to a Grammar education for your child, in 2015 Townsville Grammar School opened the Early Education Centre at its North Shore campus, closely followed by the opening of the junior primary years programme in 2017.

These young Grammarians are enrolled in much more than a school - they are immediately embraced as part of the Grammar Community, with a history dating back to 1888.

Both the Early Education Centre and the Junior School at Grammar's North Shore Campus ensure a careful balance of academic encouragement, sporting and cultural excellence. Personal best in these endeavours is promoted to all our children.

The state of the art North Shore Campus is located in the Northern Beaches area and caters for students from Pre-Kindy (3 years old) to Year 4 with outstanding facilities and hand picked quality staff.

EARLY EDUCATION CENTRE

Children begin their educational journey, not only developing their cognitive, physical and social abilities to their full potential; but also with a sense of joy and enthusiasm for school.

Townsville Grammar School Early Education Centre is the first entry point to the School community. With the opening of the North Shore campus, Townsville Grammar School welcomed its youngest Grammarians with Pre-Kindy being available to 3 year olds.

At the EEC you can choose from a 3, 4 or 5 day programme with Before and After School Care from 6.30am until 6.00pm, 50 weeks per year. The Centre is also CCB accredited.

The six key learning areas discovered every day with a fully qualified teacher are:

- » Social and Personal Learning
- » Health and Physical Learning
- » Literacy, Language & Communication
- » Numeracy
- » Science
- » Creative Arts

Through a wide variety of open ended activities that stimulate their imagination and allow for creativity, the children learn through experiences and a play-based curriculum.
