The Townsville Chamber of Commerce Inc.
Notes to the financial statements
30 June 2026

The financial statements cover The Townsville Chamber of Commerce as an individual entity. The Townsville Chamber of Commerce is a not-for-profit Association incorporated in Queensland under the Association Incorporation Act (QLD) 1981 (as amended by the Associations Incorporation and Other Legislation Amendment act (QLD) 2020) ('the Act').

The financial statements are presented in Australian dollars, which is The Townsville Chamber of Commerce's functional and presentation currency.

Note 1. Material accounting policy information

The accounting policies that are material to the incorporated association are set out below. The accounting policies adopted are consistent with those of the previous financial year, unless otherwise stated.

Basis of preparation

In the Committee members' opinion, the incorporated association is not a reporting entity because there are no users dependent on general purpose financial statements.

These are special purpose financial statements that have been prepared for the purposes of complying with the Association Incorporation Act (Qld) 1981 (as amended by the Associations Incorporations and Other Legislation Amendment Act (QLD) 2020) Act. The committee have determined that the accounting policies adopted are appropriate to meet the needs of the members of The Townsville Chamber of Commerce.

The financial statements have been prepared on an accrual basis and are based on historical costs modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

Revenue recognition

The incorporated association recognises revenue as follows:

Revenue from contracts with customers

Revenue is recognised at an amount that reflects the consideration to which the Association expects to be entitled in exchange for transferring goods or services to a customer. For each contract with a customer, the Association recognises revenue when, or as, each performance obligation is satisfied in a manner that depicts the transfer of the promised goods or services to the customer.

Sales revenue

Events, fundraising and raffles are recognised when received or receivable.

Donations

Donations are recognised at the time the pledge is made.

Grants

Grant revenue is recognised in profit or loss when the incorporated association satisfies the performance obligations stated within the funding agreements.

If conditions are attached to the grant which must be satisfied before the incorporated association is eligible to retain the contribution, the grant will be recognised in the statement of financial position as a liability until those conditions are satisfied.

Interest

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

Income tax

As the incorporated association is a charitable institution in terms of subsection 50-5 of the Income Tax Assessment Act 1997, as amended, it is exempt from paying income tax.

Note 1. Material accounting policy information (continued)

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the incorporated association's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the incorporated association's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Trade and other receivables

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

Property, plant and equipment

Plant and equipment is stated at historical cost less accumulated depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment (excluding land) over their expected useful lives.

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the incorporated association. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss.

Financial instruments

Financial instruments are recognised initially on the date that the Association becomes party to the contractual provisions of the instrument.

On initial recognition, all financial instruments are measured at fair value plus transaction costs (except for instruments measured at fair value through profit or loss where transaction costs are expenses as incurred).

Financial assets

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

The Association's financial assets measured at amortised cost comprise trade and other receivables and cash and cash equivalents in the statement of financial position.

Subsequent to initial recognition, these assets are carried at amortised cost using the effective interest rate method less provision for impairment.

Interest income, foreign exchange gain or losses and impairment are recognised in profit or loss. Gain or loss on derecognition is recognised in profit or loss.

Note 1. Material accounting policy information (continued)

Trade and other payables

These amounts represent liabilities for goods and services provided to the incorporated association prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

Intangible assets

Software has a infinite life and is carried at cost less any accumulated amortisation and impairment losses. It has an estimated useful life of between one and three years.

Contract liabilities

Contract liabilities represent the incorporated association's obligation to transfer goods or services to a customer and are recognised when a customer pays consideration, or when the incorporated association recognises a receivable to reflect its unconditional right to consideration (whichever is earlier) before the incorporated association has transferred the goods or services to the customer.

Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Defined contribution superannuation expense

Contributions to defined contribution superannuation plans are expensed in the period in which they are incurred.

Note 11. Remuneration of auditors

During the financial year the following fees were paid or payable for services provided by Horizon Nexus Partners, the auditor of the incorporated association:

	2026	2025
	\$	\$
<i>Audit services – Horizon Nexus (Qld) Audit Pty Ltd</i>		
Audit of the financial statements for the year ended 30 June 2026	5,750	4,675

Note 12. Contingent liabilities

The incorporated association had no contingent liabilities as at 30 June 2026 and 30 June 2025.

Note 13. Commitments

The incorporated association had no commitments for expenditure as at 30 June 2026 and 30 June 2025.

Note 12. Events after the reporting period

No matter or circumstance has arisen since 30 June 2026 that has significantly affected, or may significantly affect the incorporated association's operations, the results of those operations, or the incorporated association's state of affairs in future financial years.

Note 13. Statutory information

The registered office and principal place of business of the incorporated association is:

305 Flinders Street
Townsville City
QLD 4810

The Townsville Chamber of Commerce Inc.
Statement by Members of the Committee
30 June 2026

In the committees' opinion:

- the incorporated association is not a reporting entity because there are no users dependent on general purpose financial statements. Accordingly, as described in note 1 to the financial statements, the attached special purpose financial statements have been prepared for the purposes of complying with the Associations Incorporation Act (QLD) 1981 (as amended by the Associations Incorporations and Other Legislation Amendment Act (QLD) 2020) and associated regulations;
- the attached financial statements and notes comply with the Accounting Standards as described in note 1 to the financial statements;
- the attached financial statements and notes give a true and fair view of the incorporated association's financial position as at 30 June 2026 and of its performance for the financial year ended on that date; and
- there are reasonable grounds to believe that the incorporated association will be able to pay its debts as and when they become due and payable.

On behalf of the committee

Kevin Booth
President

13 November 2026
