

Equitrac Express®

NUANCE

The experience speaks for itself™

Intelligent Print Management for Educational Organizations

Equitrac Express® gives IT administrators the flexibility to let students, faculty and staff print what they need and when they need it, wherever they are located. At the same time, it helps to reduce total print output and costs, accurately allocate print costs, implement print quotas, and enable guest printing through pay-for-print.

Now with I-Queue™, Equitrac Express delivers organizational control and reduces IT complexities by removing dependencies on print servers, print drivers and complex print fleets that cause challenges in today's changing environment.

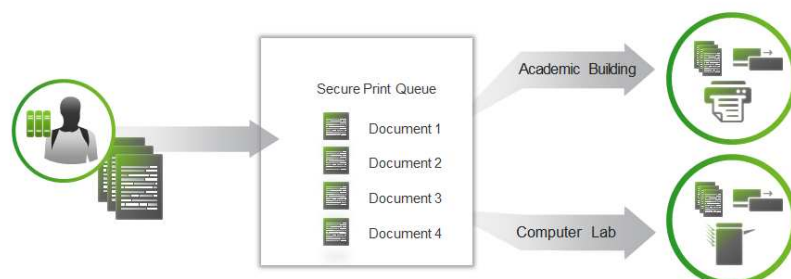

It helps you regain control of campus-wide printing, while making printing convenient, secure and accessible for all users. And gain the flexibility to tailor your print environment according to the specific needs of your users and organization.

Control, Convenience and Choice

Whether using server-based printing, I-Queue or a combination to best suit your needs, Equitrac Express provides the control, convenience and choice necessary to manage printing effectively in today's ever-changing user and IT landscape:

- **Control**, to ensure that printing is done responsibly, securely and within policy, while reducing costs
- **Convenience**, to provide print access to users whenever and wherever they need it, while reducing the burden on IT
- **Choice**, to deploy the infrastructure IT wants while encouraging users to print only what they need

Equitrac Express accomplishes this through a rich combination of features including detailed activity tracking and reporting, Follow-You Printing®, Rules & Routing, Print Quota Management, Mobile Print Management, I-Queue and integrations with the systems – including campus cards – that are in use in your organization.

Whether you use server-based printing or I-Queue, Follow-You Printing makes printing convenient, secure and completely accessible to users wherever they are.

Key Features

- **Reduce complexities of managing multiple types and brands of printers across the organization**
- **Deploy server-based printing, I-Queue or a hybrid model with the convenience of a single print management application**
- **Creates a unified view of print, copy and scan activity for all devices on the network to help organizations identify and implement print cost savings initiatives**
- **Integrates with campus card and payment systems to easily track costs and deploy pay-for-print or print quota programs**
- **Embedded applications and hardware-based print release options combine to support every type and brand of printer**
- **Encourage responsible behavior such as letting users select or delete print jobs from the secure queue and applying rules to reduce print costs and waste**
- **Ensure document security by tracking all activity and holding documents in a secure print queue until they are released**

Campus-Wide Print Management

Delivering print to multiple user types – students, staff, faculty and guests – creates a unique set of challenges for educational institutions. And the risks of overuse are high if print is not carefully managed.

Equitrac Express makes it easy to set up campus-wide policies for printing and enforce them – consistently and automatically – to promote responsible printing behavior and keep costs under control:

- Setup page quotas for students and faculty
- Use flexible pricing to give students a spending limit of free prints
- Re-direct large jobs to high-volume devices or a campus print shop
- Eliminate unnecessary printing by allowing users to delete jobs sent in error
- Hold documents in a secure print queue until the user authenticates at the device of their choice via credentials or campus card
- Enable chargeback to departments or specific funding sources (grants, etc.)

The Equitrac Express Advantage

1

Hybrid Print Control

Use print servers, I-Queue or a hybrid model with complete control

2

Complete Accountability

Accurately track and allocate print activity and costs for all user types

3

Stop All Non-Essential Printing

Enable users to make the smartest choice every time they hit print

4

Make Every Printer Personal

Deliver security and convenience at every printing device
